Subject: Termination of Labor and Demand for Payment

Mr. Weatherman,

I've reviewed the situation and, based on the scope of work, the lack of permits, code violations observed on your manufactured home and installations - see Klickitat County Code, Titles 15&16 - and your repeated unprofessional & harassing behavior, I cannot continue this job legally or ethically. I am terminating all labor on the property as of today's date.

Specifically, you have directed the installation of cement fiberboard siding over the existing exterior siding (without removal), without proper flashing or moisture barrier application, over signs of dry-rot/decay, and without any building permits or L&I inspections. The front half of the residence has no moisture barrier, no z-flashing, and the board overlap is less than the 1.25" required. The windows being installed are of different dimensions than the ones being replaced, etc.

The solar panel and wind generator installations are in a severe state of disrepair, raising the question if the next gust will bring them down on one's head, and/or set the county on fire from electrical arcs upon collapse. I've never before seen a carport, or even a pole building, permitted to be built with such apparent disregard for wind & snow loads, or even general structural safety guidelines for that matter. {See: Chapter 15.06 - INTERNATIONAL BUILDING CODE}

The structural weight being added to a manufactured home without a concrete foundation requires an inspection and approval by L&I, without which it presents both safety and legal concerns. {See: WA RCWs > Title 43 > Chapter 43.22}. Your repeated refusal to address these issues leaves me with no choice but to immediately cease work to avoid potential liability or enforcement action.

You treat us as employees not as if contracted. You dictate the hours, control how the job is done, threaten to withhold pay, threaten to replace us, and show up at our home (uninvited & unannounced) if we don't show up at your command.

You slandered our names with an unwarranted public accusation of theft (minutes later realizing you were wrong). You treat us as expendable domestic labor. You have been targeting our economic hardship to get away with abuse (financial, verbal). You have repeatedly made comments that were rude, disrespectful, derogatory, demeaning, exploitative, inappropriate, and sexually harassing. You have made unwelcome physical contact on several occasions, making Jessica feel unsafe and our daughter (witness to your behaviour) EXTREMELY upset.

On our final day (08/03/2025), you drove Jessica (& our daughter) to Yakima and back, on the clock. You made threats to leave Jessica stranded in Yakima; this was done irrationally, and in front of our daughter, scaring her. During this trip your speed was regularly in excess of 25+ over the posted speed limit (according to GPS and both girls) which terrified them. This was absolutely unacceptable, and put countless lives at unnecessary risk of injury or death.

There is debris (exposed & buried) everywhere, and nearly every structure is in an unsafe state of disrepair. Altogether, this has created a hostile work environment.

As of today, I have completed approximately 40% of the agreed siding labor. Per our verbal agreement of \$2,500 upon completion, I am owed a minimum of \$1,000 for services rendered to date. I am owed \$400 for emergency temporary repair of the solar panel subframe (delaying the impending collapse), and \$150 for the window installation.

Jessica is owed for the Yakima trip 08/03/2025, Goldendale trip on 07/29/2025, and labor on 08/02/2025 (weedeating the driveway, etc). Total per verbal agreement \$300 (3 days @ \$100/day).

Total amount due at this time is \$1850 for all services rendered and unpaid. I am requesting that this amount be **paid in full no later than five (5) business days from the date of service of this notice.**

Please be advised that if payment is not made within this timeframe, I will pursue recovery through formal channels, which may include but is not limited to:

A wage theft complaint filed with the Washington Department of Labor & Industries.

A claim for misclassification and unpaid labor under RCW 49.46.

A report of unpermitted construction activity to county code enforcement and/or L&I, along with Klickitat County Building department regarding retroactive permit inspection.

As well as filing a small claims action for unpaid wages and damages, including but not limited to claims of: Sexual Harassment; Negligent Infliction of Emotional Distress; Verbal Harassment; Negligence; and Reckless Endangerment.

For our safety and security, all future communication regarding this matter must be made in writing. I will no longer accept phone calls or in-person visits regarding this dispute.

Sincerely,

Rev. Zack Bennett

Jessica Bennett
